GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

The Overland Blockade.

[illegible], March 11.—The situation on the [illegible] blockaded railroads entering this point [illegible] materially changed this evening. [illegible] trains occupy relatively their [illegible] positions with the exception of Number [illegible] last night, which has put back [illegible] for better accommodations. Assistant Superintendent J. T. Clarke has [illegible] with two hundred [illegible] station to day and [illegible] Atkins, which in point of [illegible] greater success than has attended [illegible] Division Superintendent [illegible] with 125 men, is working east [illegible] Cheyenne, but owing to the [illegible] snow he had made only four [illegible] half way through the [illegible] point. [illegible] March 11.—The *Tribune's* Wash[illegible] says there are indications that [illegible] abandoned all idea of har[illegible] one the Republican party in [illegible] any appointments he may make, [illegible] has settled on the purpose to [illegible] not identified with either [illegible] port of New Orleans, [illegible] followed by sweeping changes in other [illegible]

[illegible] to Work the Silver Bill.

[illegible] March 11.—Secretary Sherman [illegible] before the committee on coinage, [illegible] measures this morning and gave [illegible] about the proposed measure for issuing [illegible] of deposits of silver bullion. [illegible] the question was discussed [illegible] whether such certificates should merely [illegible] the bullion at its market value, or [illegible] the government should any bullion [illegible] certificates. It seemed to be con[illegible] that the certificates should be issued, [illegible] came to no conclusion as [illegible] Dr. Linderman gave information [illegible] the facilities for coining the new [illegible] dollar and said to double the present [illegible] would require three additional [illegible] in addition to that at New Or[illegible]

The Halifax Fishery Award.

Chicago, March 11.—The *Journal's* Wash[illegible] special says: Blaine having called up [illegible] award to-day attacked it in a brief [illegible] claiming it was excessive, unfair and [illegible] to be paid. Interest on the award [illegible] the value of all the fish caught in [illegible]

Hamlin said the national honor demanded the payment of the award.

[illegible] Nominated.

The president to-day nominated John W. Hoyt of Wisconsin governor of Wyoming territory.

Venezuelan Claims.

Washington, March 11.—The Venezuelan claims inquiry closed to-day.

Nominations.

The president nominated Daniel P. Kelly of Pennsylvania, chief engineer in the revenue marine service. R. M. Reynolds, formerly collector of Mobile, will be nominated first auditor of the treasury in place of Hon. David M. Mohan, resigned.

Changes in the Tariff.

The ways and means committee made the following changes in the tariff: Figs, 1½ cents per pound; all kinds of kid gloves $1 per dozen.

The Case against Gen. Howard.

In the criminal court to-day before Judge Wylie the case of the United States against Gen. O. O. Howard, late commissioner of the Freedman's refuge and abandoned lands, was taken up. This is an action to recover $13,[illegible] claimed to be due on settlement of his accounts, and it is alleged these moneys came [illegible] by virtue of his being such commissioner and trustee, the amounts being [illegible] to colored soldiers, etc., and under the act of congress a large portion of this fund was diverted. The defence was that the subject matter of this case had been a subject of inquiry by the army and he was exculpated; that the funds in question were in the hands of G. W. Bullock, a detailed officer, and defendant was not responsible. Under instructions of the court a verdict was found for the defendant.

Portland Bridge Bill.

Senator Mitchell introduced a bill authorizing the construction of a bridge across the Willamette at Portland.

Oregon Central Railroad.

Messrs. Mitchell, Dawes, Teller, Ransom and Barnum, a sub-committee of the senate railroad committee, to-day unanimously agreed upon Mitchell's bill granting three years time for the construction of the Oregon Central Railroad from Forest Grove to Astoria and authorized Mitchell to report it to the full committee with important amendments. Under this bill lands are all to be thrown open to settlement, the company reserving the proceeds of the sales to actual settlers by the government.

The same senators constitute the sub-committee on the Northern Pacific bill, and their action to-day establishes the principle for which Senator Mitchell has been contending in regard to the Northern Pacific and all similar land grants.

The Holladay Depredation Claim.

The senate devoted two or three hours today to the bill referring Ben Holladay's claim for losses by Indian depredations, etc., to the court of claims. The discussion was almost wholly confined to the question whether the affidavits presented before the committee should be received as testimony in the court of claims or whether fresh evidence should not be taken by that tribunal. The question was considered important with reference to the establishment of a precedent and was ably debated by some of the most prominent lawyers of the senate. It was finally decided by a small majority that the court should take testimony on all the points for itself. The bill is still pending on a motion for recommittal.

Trade Dollars to be Abolished.

Washington, March 11.—The house committee on coinage weights and measures have substantially agreed to report a bill abolishing the trade dollar. Their chairman, Alexander H. Stephens, originated the measure a few days ago in the committee and expected to present it to the house to-day, but concluded to defer his report. Horace Davis, hearing of Stephen's intention, this morning protested against the measure, and he and Wren, of Nevada, immediately claimed the privilege of being heard on the subject by the committee before final action. Stephens, in reply, promised they shall have the desired opportunity. Persons living on the Pacific coast who are opposed to the absolute abolishment of this coinage should indicate their opposition very promptly, as the committee expect to report on the subject next week, and probably next Monday.

THE EASTERN QUESTION.

Getting Mad after the Fight is Over.

London, March 11.—Trustworthy advices from India state that the Mohammedans are greatly excited about the overthrow of Turkey. Serious trouble is apprehended unless the government takes some anti-Russian action shortly. It is believed, two hundred thousand Moslem volunteers to serve against Russia could be raised without difficulty.

Must be Kept out of Russian Hands.

Berlin, March 11.—The *Post* says measures must be taken to prevent the Dardanelles and Bulgaria from becoming Russian property.

The Greek Insurrection.

Athens, March 11.—The insurrection is very active in Thessaly, Epirus and Crete. Fresh outbreaks in Macedonia are reported.

England's Demand on Russia.

London, March 11.—The *Times*, in a leading editorial, contends that Russia must submit every one of the peace conditions to the congress, not excepting the indemnity clause. The article says:

> She has no right to be a dictator over Turkey. The great powers did not invite her to make war or give her a commission to replace the government of the Porte in any way she may think fit.

The *Times* also eulogizes government's action in bringing forward the Greeks' claims. It says:

> No decision so patriotic and farseeing has been taken by the cabinet in many a day as the step proposing that Greece should be represented at the conference. It recognizes that the old state of things cannot be restored, and that the best materials for replacing it are to be found in the Hellenic race.

BY ATLANTIC CABLE.

The Man for the Work.

Rome, March 11.—Cairoli, who has undertaken to form a new ministry, is a former Garibaldian. He is deservedly popular and is the only one who can reorganize the liberal party.

A Disturbing Element.

Disturbances among the Swiss guard and the Vatican continue. Forty have been dismissed. Some fanatics inside and outside the Vatican are tampering with these mercenaries for the purpose of creating difficulties for the pope.

Doings of the Reichstag.

Berlin, March 8.—The reichstag to day passed two clauses of the chancellor's substitute bill. The discussion of the third clause is postponed until to-morrow. The Saxony minister supported the bill as constituting the foundation for a good administration of the empire, but declared himself opposed to the formation of an imperial ministry, as were the Bavarian and Wirtemburg representatives. Prince Bismarck incidentally remarked that he did not abandon the hope of eventually forming an independent provincial representation for Alsace and Lorraine.

Death of a King's Father.

Vienna, March 8.—Arch Duke Francis, father of the emperor, is dead.

Gladstone Quits Politics.

London, March 11.—Gladstone has been invited to represent Leeds in parliament, but declines.

Storm at Sea.

Fayal, March 11.—The steamer *Euphrates*, from Philadelphia for Liverpool, put in here severely damaged in fearful gales. She must discharge and restow cargo.

CANADA.

The New Ministry of Quebec.

Quebec, March 11.—The new government had a cabinet meeting to-day. Writs for the re-election of ministers have been issued. Messrs Bachand, Marchand and Chauvea will probably be elected by acclamation and Jolly by a good majority.

How the Senators got their Bourbon.

[Washington Letter to Chicago Tribune.]

The three great lights of government, the president, the vice president and Mr. Speaker, are pledged total abstinence men, and those who visit the capitol cannot get a glass of beer at either the senate or house restaurant. Yet it is an undeniable fact that there were more drunken men on the floor of the senate the night of the passage of the silver bill than have been seen there since the war. The reason was that every other gentleman who visited the capitol that night carried a small package, and said to his senatorial friends: "I know you can't get anything to drink up here now, so I brought up a little something." Of course there was an adjournment to a committee room, and the senator complimented had to show his appreciation of the gift by sampling it. The consequent mixture of champagne, whisky, sherry, brandy and gin, made some of the senators decidedly groggy, but then, be it remembered, the recording angel has no jurisdiction in the District of Columbia.

The general superintendent of the Seabeck mill will erect this spring near the shipyard, a building, 40x100 feet, and put in a planer suitable for planing the largest and longest ship timbers and planks in use. Also, endless saws, or band saws, that will cut the ship's frame, knees, &c., at any bevel required.

CONGRESSIONAL.

Senate.

Washington, March 11.

A large number of petitions were presented remonstrating against the transfer of the life-saving service to the navy department and against the tax on incomes.

Windom, from the committee on appropriations, reported, with amendments, the West Point appropriation bill, and gave notice that he would call it up for consideration to-morrow.

Matthews reported an amendment, in the nature of a substitute, to the bill recently introduced by Dorsey, in relation to the establishment of a sinking fund for the liquidation of the indebtedness due the government by the Pacific railroad companies; placed on file.

Blaine said the correspondence called for by his resolution would show, on the part of Great Britain, a designed and persistent effort to secure advantage in the appointment of the third commissioner. England insisted that Delafosse should be the third commissioner. Our government refused and submitted a list of names including half a dozen foreign ministers at Washington. The English government refused them all and demanded Delafosse. There were delays of some years on account of the attempt to negotiate a reciprocity treaty, and under the treaty of Washington the choice of the third commissioner then fell to the Austrian ambassador at London, who promptly chose Delafosse. He would not attempt to define the action which the government should take, but if it followed the precedents of Great Britain, it would utterly refuse to pay a single penny, standing both on law and equity. The law is a mockery and injustice, and will work the destruction of a great American interest. It is asking us to pay annually a million dollars to Great Britain for destroying the great fishery interest of America and further crippling and weakening us as a commercial power. We pay Great Britain a million dollars for catching four hundred thousand dollars' worth of fish. The award is so unjust that respect for it is difficult. He would be perfectly willing to pay double the award to be rid of the treaty. This would remove all imputations of bad faith and in time restore something of life to the trade. The treaty even gives away the preference formerly given our own fishermen in our markets. He emphatically protested against thus killing our commerce. He believed American products should have the best chance in the American market. We should prefer American to Canadian fishermen.

Hamlin said he did not oppose the resolution. At the proper time the result of the fishery commission would be transmitted to congress with a recommendation that money be appropriated. He agreed with his colleague (Blaine) that we got no equivalent for the money. The honor of the government demanded that we maintain the obligation imposed upon us. He didn't desire any prejudgment of the duty of the senate. When the time came to appropriate money senators must remember the arbitration was finally taken by the assent of our government, and the national honor demanded all requirements should be met.

A bill was introduced by Dorsey to disapprove and annul the act of the legislative assembly of the territory of New Mexico, passed on the 18th of January, 1878, by a two thirds vote of both houses over the veto of the governor. He also presented a certified copy of the act proposed to be annulled, entitled an act of the legislative assembly of the territory of New Mexico, entitled an act to incorporate the society of Jesus of the Fathers of New Mexico.

Conkling, from the committee on judiciary, reported favorably the house bill to make persons charged with crimes and offenses, competent witnesses in United States and territorial courts; placed on the calendar.

Senate then resumed consideration of unfinished business, being the bill referring the claim of Ben Holliday to the court of claims, which was discussed at length, and Thurman submitted a motion to recommit to the committee on claims.

Pending discussion senate adjourned.

House.

Under call of states a number of bills were received and referred.

By Riddle—To reduce the present tax on whisky and tobacco.

By Knapp—To issue certificates of deposit of silver bullion or bars.

By Crittenden—To issue certificates on deposit of silver bullion.

By Martin, by request—To abolish the court of claims.

By Patterson—Fixing the measure of damages in suits waged by the government for timber cut on public lands.

By White—To repeal the act providing for payment of certain southern mail contracts.

By Fort—For the preparation of uniform silver bars of the value of hundred and one thousand dollars standard silver, and for the issue of certificates thereon which shall be receivable for all public dues.

By Ewing—A joint resolution proposing an amendment to the constitution, providing that in order that the people of the United States may be furnished with a permanent and stable paper currency congress shall provide for issuing blank million dollars U. S. notes, not bearing interest, which shall be a legal tender for all debts, public and private, except for such existing debts as are by contract payable only in coin, and that the number of such notes shall be increased each year at a rate equal to the average increase of population, and that the first issue of said notes shall be used, as far as necessary, in retiring U. S. notes not bearing interest now outstanding, and the remainder in reducing the interest bearing debt. It further provides that no law of the U. S. or of any state shall authorize the issue of notes payable on demand for the benefit of any person or corporation, and congress shall provide for withdrawing from circulation all bank notes now outstanding.

By Harmer, the petition of citizens and type founders of the United States requesting that in order to prevent fraud in the introduction of foreign type into the United States, the duty may remain a specific one as on the bill now before congress, and not be changed to an *ad valorem* duty.

At the expiration of the morning hour the house went into committee of the whole on the diplomatic appropriation bill.

Hewitt said he would have not spoken on the bill except for a recent event which had startled the whole country. That event was the decision by the fishery commission, awarding five and a half millions to Canada. He contrasted the shining legal lights of Great Britain who had represented that country, with the respectable but minor intellects who had represented America in the commission. He attacked the present diplomatic service as a shame and a refuge for worn out politicians, and favored only two foreign European missions, one at London, the world's commercial center, and one at Berlin, the center of political power. These men should be well paid, and not humiliated by association with other ministers. He would have secretaries at other ports to report to the ministers. He favored a retention of the South American missions because ever-recurring revolutions demanded ministers to protect our citizens there. Wherever commercial and diplomatic interests were involved he would retain the minister, but favored decreasing the expenses where only political questions were to be dealt with. The president had power to make the diplomatic service a source of immense value to the country. He read the president's civil service reform order, and said the fifth auditor of the treasury had been making political speeches in New Hampshire. He would not comment on the fact that no president ever made such pledges as Hayes, and both parties had wondered that these pledges and promises were not kept. Had Hayes kept his faith with the people? Men puzzled their brains to know why he had not. It was not because he wanted to reward his own party, for he had trampled it under foot. Not because he wanted to come into the Democratic party, because he knew that party wanted no recruits from that direction. He had said that he would not give appointments for political reasons; that was to the party which had nominated him and which had tried to elect him and, within very narrow limits he kept this pledge as to that, but there had been more than one campaign in 1876. There had been a campaign of election and a campaign of electoral action, and when his appointments were turned to it would be found that he had rewarded those who had secured his counting in to the high office of president of the United States. To begin with his cabinet, there could be found two secretaries who had been counsel on the electoral commission.

Frye—If the gentleman is making an attack on the civil service reform of the president, I hope he will see to it to give us friends of his policy sufficient time to reply. [Loud laughter.]

Hewitt said he thought the president had no civil service policy. Among his other appointments were those of Wells, Anderson, Cassanave and Kenner in Louisiana, and of Stearns in Florida. The president has also broken his pledge by appointing three personal friends: Noyes, who had put Hayes in nomination as minister to France, Comley who had discovered Hayes, as minister to the Sandwich Islands, and Lee as consul to Frankfort. He then read a letter from Comley to a private friend in which he pictured the duties of minister which was read amid much laughter.

Hewitt resumed his speech and proceeded to criticise diplomatic appointments. Having mentioned the name of Lee, consul general at Frankfort, Jones of Ohio defended the appointment, and said Lee was a man of culture, capacity and integrity, and that no better selection could have been made.

Hewitt said he was glad to hear it, but disclaimed any intention of attacking Lee's character or abilities. His object was that the appointment had been made on personal grounds. He asked Jones whether Lee was a German scholar.

Jones replied that Lee could both translate and speak German, and that in point of culture he came fully up to the Jeffersonian standard.

McMahon asked Jones whether the appointment has not been made on account of Lee's connection with the American alliance.

Jones said he had no knowledge on that subject. He only knew that Lee's personal merits justified the appointment.

Hewitt replied that whatever his personal merits might be his appointment was excluded by the fact of his personal relations with the president. That was the only point he chose to make. In reference to the appointment of Kasson to Austria, Lowell to Spain, Welch to London and Bayard Taylor to Germany, there were more or less objections to all of them. He admitted the experience, ability and eminent fitness of Kasson but the objection to him was he had been one of the "visiting statesmen." He had gone to Florida, and had rendered valuable services in the electoral struggle. Welch was a highly respectable merchant, but his selection was not a good one for such an important post. Lowell was a man of letters, a scholar who had done honor to his age and country, but in view of the delicate and intricate nature of this country's relation with Spain he questioned the fitness of that appointment. Although he recognized Bayard Taylor's experience and abilities he believed, in view of the important questions springing up in Europe, the selection of Taylor was not the best that might have been made. It appeared to him as if the president's will had been paralyzed by threats made on either side of the house and by newspaper discussions as to his title to office. Hewitt wished to say distinctly that Hayes held his title beyond reach of any proceeding political or otherwise, except in his own conscience. If there had been a wrong done it had been done not by the president but by the electoral commission. Hayes held his office by an irrefragable and sacred title and therefore he could afford to march firmly forward in the execution of the pledges which he had given, but if the president went on to the end of his term, falsifying those pledges and neglecting the performance of his obligation, then the American people would hold that the fraud had been not in the title but in the performance.

The committee rose, and Sayler from the committee on ways and means, reported as the unanimous action of that committee a joint resolution prescribing the time for the payment of taxes on distilled spirits, and had it referred to the committee of the whole on the state of the union. He then moved to go into committee for the purpose of considering it.

This motion was rejected and Sayler gave notice that he would renew his motion very soon.

Clymer, from the appropriation committee, reported the naval appropriation bill. The total amount of the appropriation is $14,046,685. The salary of admiral is fixed at $13,000 and of vice admiral at $8,000. $150,000 is appropriated for the civil establishment of navy yards. Referred to committee of the whole.

Cox asked leave to offer a resolution reciting that the administration of President Diaz in Mexico has fulfilled the requirements of the constitution and law for the purpose of recognition by our government, and that such recognition would be in the interest of international intercourse, and inviting the president of the United States to recognize said government of Mexico as at present administered.

Mills objected.

The house then took a recess until 7:30, the evening session to be for debate only.

EVENING SESSION.

House called to order, Hardenburgh in the chair, at 7:30 with not more than a dozen members present and was addressed by Covert in opposition to the bill transferring to the navy department the control of the life saving service, and by Hayes, who opposed the Mexican pension bill on the ground that it would place a traitor side by side on the rolls with a patriot, and by Baker of Indiana in regard to the patent laws, and by Tipton in favor of postal savings banks and postal telegraph. Adjourned.

PACIFIC COAST NEWS.

CALIFORNIA.

A Frightful Runaway.

San Francisco, March 11.—About 10:30 o'clock this morning a horse attached to a spring wagon started to run on Market street near Dupont. The animal turned into Kearney and knocked down a man, severely injuring him. The horse then dashed around the corner and ran over a young lady named Hyde, who was passing, killing her. The animal was frightened by an auctioneer's bell.

Murdered.

Christopher Wemmiller, an inoffensive German, about 60 years old, was found murdered in his cellar on Sweeney creek near Vacaville, Sunday morning, his head smashed in with a hatchet, which was found there, and his throat cut nearly from ear to ear. It is thought he had been dead since Friday. Deceased was a single man and lived alone. He had recently sold about $1,000 worth of wheat to parties at Dixon, but had only drawn $300 of that money, which he afterwards loaned to other parties. As deceased had no known enemies it is supposed the murder was committed in order to rob him. There were wine glasses on the table, trunks and boxes were broken open, and everything left in disorder. No clue has yet been obtained which would indicate the murderers.

A Divided Party.

The Workingmen's Club of this city, after ratifying the Kearney constitution, have placed themselves without the pale of the state organization by adopting a different platform for the approaching city election. They also, through their nominating committee, solicit citizens who do not belong to the club or approve its custom to accept a place on their ticket. This seems to weaken rather than strengthen the prospects of their success in this city. The resolutions adopted by the club Saturday night demand that a bill of impeachment shall be presented against members of the supreme court who reversed the mortgage tax decisions.

Work in Ophir.

Virginia, March 11.—The attention of everybody is just now concentrated upon the Ophir mine. This is the key to the situation, the pivotal point upon which mining values will turn. Two crosscuts numbered 2 and 3 were started last Saturday on the 1900-foot level, and in two or three days at furthest they should cut into an ore body. From the 1700 foot level a winz is being sunk and a corresponding raise is being made from the 1900. The two should connect in three or four weeks. It is generally believed however that the best portion of the ore body must be looked for in the drift. By the end of the present week work will probably be resumed on the north drift in ore body on the 1900-foot level of Ophir and in a few weeks thereafter it will be ascertained whether or not the ore body extends into Mexican and Union.

HORRIBLE CONFLAGRATION AT TIENTSIN.

NEARLY THREE THOUSAND CHINESE BURNED TO DEATH.

[From the Hong Kong Mail.]

At Tientsin, on the 7th of January, a terrible calamity occurred. A fire broke out at 10 o'clock in the morning, at one of the relief yards established outside the city wall for the benefit of the famine refugees. A strong northeast wind was blowing at the time, and scarcely an hour passed before the sheds were burned, and between 2,800 and 3,000 women and children were suffocated or burned to death. As correct an estimate as I can get gives the number of inmates at 3,000, of whom a little over 100 escaped. The location of the soup kitchen was unfortunate. On the east side was the city ditch; and a part of the south and west sides was an ice pit, while houses lined the remaining sides. In addition it was surrounded by a strong fence of kauliang stalks plastered with mud, in which there was only one gate, and it was said on the bursting forth of the flames the gate keeper locked the gate and ran away. Many of the Chinese showed much courage in trying to render assistance, a[illegible] by an eye witness, who, passing just at the time, hastened to do what he could in tearing down the fence and rendering other service. He speaks of the scene at that time as terrible beyond description. The scene presented after the fire had done its work was ghastly and horrible, and the picture of it rises before my mind as one that can never be effaced. The contortions of the features, the positions of the bodies, hands, limbs, mouth and eyes the same as when the flame and smoke overtook them, reminded one of the descriptions of Pompeii. Had the gate been left open probably many more might have made their escape, but so rapidly did the flames spread through the mat sheds, and in the straw and mats spread on the ground as a protection against dampness, that before an opening could be made in the fence few even were left to linger on in suffering. How the fire originated no one seems to know—a spark possibly, from the range where at the time the food was cooking.

OREGON.

Douglas county has 3,563 school children, and 63 school districts.

The "First Hebrew Cemetery Association of Albany" incorporated last week.

Still another church is to be erected in Pendleton; this last one by the Baptists.

Another cattle buyer from Idaho is in Rogue river valley. He wants 2,000 head.

On Wednesday of last week snow fell rapidly at Jacksonville, but did not lie long.

The Jacksonville *Sentinel* confidently predicts that within the next two years the gold yield of Jackson and Josephine counties will exceed the standard of their palmiest days.

At the town election at Jacksonville on Tuesday of last week D. Linn, T. G. Reames, K. Kubli, N. Langell and J. Nunan were chosen trustees; U. S. Hayden, recorder; Henry Pape treasurer, and A. Holms marshal. The total vote was 136.

Linkville letter to Ashland *Tidings*: The first move toward the reclamation of swamp lands on Big Klamath, was made last week; four sticks of giant powder were placed in a crevice of the reef, at the head of Link river, and exploded, which threw up a large volume of water to a height of about 100 feet, and made quite a scattering of stones in that vicinity.

THE TERRITORIES.

Dayton, W. T., is to have still another paper, to be called the *Columbia Chronicle*.

Seluclus Garfielde, not long ago delegate in congress from Washington, was recently arrested there for running a faro game.

The ship *Dashing Wave* is reported to have recently made the run to Cape Flattery in the unprecedentedly short time of 54 hours.

The Utsalady mills will be started up about the first of next month. An engine room 30x60 feet is being built, and two new boilers will be put in.

Col. Larrabee of Seattle, nominee of the Democratic party to represent the third judicial district in the constitutional convention, will open the campaign, making his first speech at Snohomish on the 10th inst.

On the 4th inst., while just inside Cape Flattery, a brother of Capt. Johnson, of the barkentine *Perkins*, from the Sandwich Islands, fell overboard and was lost. The drowned man was the first mate of the vessel.

Deep snows promise abundance of water in Boise Basin, and a better mining season is in prospect than for many years. The *Statesman* believes that the palmiest days of Boise Basin are yet to come. The quartz interests are greatly improving.

Most of the mills on Puget Sound are having new and improved machinery and steam power added to them. Port Blakely is having an addition that will increase the manufacture of lumber to nearly 100,000 feet in twelve hours. Port Madison is having two new engines where they only have two now, a new improved gang saw, and this increase will make them about equal to Port Blakely. The Port Gamble Mill Co. have added all the late improved machinery, thereby increasing their capacity by about one-fourth.

Judge Lewis, holding court at Port Townsend, has passed sentence in several cases with much severity. Snohomish Peter, an Indian, on conviction for selling liquor to Indians, two years imprisonment in the penitentiary and costs. Alexander Clark, on plea of guilty to charges of selling liquor to Indians, three and a half years in penitentiary and a fine of $300 with costs; and for maintaining public nuisance, $1,000 and costs. Edwin N. Rice, on plea of guilty to charges of selling liquor to Indians, five years in penitentiary, and a fine of $300 with costs; and for maintaining public nuisance, $1,000 and costs.

A Parallel Case.

[From the Detroit Free Press.]

Yesterday a ragged, shivering, middle-aged man called at a house on Sibley street and asked for food, but the lady of the house called out:

"Why don't you work for your food?"

"I would if I knew where I could find work," he promptly replied.

"There's a place down town where you can saw wood and earn your dinner," she continued.

That seemed to stick him for half a minute, but he finally said, with great solemnity:

THE NORTHERN PACIFIC.

AGREEMENT UPON THE TERMS OF THE BILL EXTENDING THE TIME FOR COMPLETION.

The following is a recent dispatch from Washington to the Philadelphia *Times*. It is just opposite in tone to a former dispatch printed in the *Times*, and quoted in a letter from Washington to the Tacoma *Herald*; but that former dispatch evidently was inspired by Mr. J. B. Montgomery, since it was exactly in the spirit of his recent letter to the Portland board of trade. The subjoined appears to represent correctly the status of the bill:

The directors of the Northern Pacific Railroad Company have acceded to the terms of the bill extending the time for completing that road in the form fixed by the house committee on railroads, and the measure is ready for presentation in the house on the call of the committee. The representative in congress from Washington territory and the entire delegation in both houses from Oregon, with the exception of Senator Mitchell, who is understood to have adverse railroad interests to serve, are satisfied with the bill in its present shape and give it their united support. From the variety of clashing interests that required to be harmonized some misapprehensions have arisen in regard to the proposed legislation and the attitude of the Northern Pacific Company. As to the failure of the pending bill to fix a definite limit to the mortgage bonds that may be issued by the reorganized company in completing its line, this the company deemed unnecessary inasmuch as the irreversible contract between the former bondholders and stockholders, which forms the basis of the present company and which has been confirmed by the courts, limits the issue of bonds to twenty-five thousand dollars per mile. As a matter of fact the present management assert their unwillingness to exceed fifteen thousand per mile, and express the belief that ever that limit need not be reached. In any case the stockholders, and not the directors of the company, will decide all questions affecting a mortgage loan. The Northern Pacific company in 1864 disposed of all its interest in and closed all connection with the Oregon Steam Navigation Company, of the Columbia river. The president of the latter corporation represents a stock interest in the Northern Pacific Company, but he is not its managing director on the Pacific coast, as has been intimated here, and has nothing to do in shaping its policy.

VALUE OF THE SILVER DOLLAR.

The commercial value of the new silver dollar will be a matter of interest to many; and the following table, which shows its actual value at different rates per ounce of silver, will be found convenient for reference and worthy of preservation. The first column shows the price per English standard ounce of fine silver in London, which is 925 fine, and the second column shows the price of 412½ grains of silver, 900 fine, in this country, without regard to basis of exchange or transportation between London and New York. Just now the market value of silver in London is 54½d, which makes the actual value of the new dollar just 92 cents:

PASSAGE OF THE STRAITS.

A LONDON PAPER TELLS HOW THE BRITISH FLEET ACCOMPLISHED IT.

The London *Standard* publishes the following letter, written by an officer on board one of the ironclads, describing the maneuvers of the fleet when ordered to the Dardanelles:

> The morning of the 24th was calm and sunshiny as the fleet lay quietly at anchor in Vourlan bay, expecting the arrival of the mail and news from Europe, of which there was a most considerable dearth. Toward noon the wind began to rise to a stiff breeze, and while lunch was on a telegram arrived, the upshot of which was that the signal went up to prepare instantly for sea. Before five o'clock the fleet, consisting of the *Salamis*, the yacht of the commander-in-chief; the *Agincourt*, flagship of Sir J. C. Commerell; the *Swiftsure*, *Temeraire*, *Sultan*, *Rupert*, *Hotspur*, *Ruby* and *Research* were under weigh and proceeded to the north, past the island of Lesbos. The orders were to pass through the Dardanelles peacefully, if possible, but to resist any attempt at obstruction. It was a prevalent idea in the fleet that permission had been granted in the first instance by the Turkish government, but that it had been subsequently rescinded. The night of the departure was stormy, and the day dawned bleak and rainy when the island of Tenedos came in view. The *Salamis* steamed into Besika bay for the latest telegrams, and, on coming out, the admiral shifted his flag to the *Sultan*, the vice consul from Chanak also arriving and embarking on board that ship. The fleet then received orders to prepare for action without any outward demonstration, so that though the upper yards were sent down, the top-gallant masts were left standing. The *Salamis* then steamed ahead to Chanak, to give warning of the approach of the fleet. Early in the afternoon the entrance was reached; the fleet halted for a short time at the Rubicon, and then, in good order, column of divisions line ahead, they steamed quickly into the Dardanelles. No attack was expected from the forts Seddul Bahr, or Castle of Europe, and Kum Kaleh, the Castle of Asia, at the entrance, as in any case the fight for the passage must have taken place at Chanak, the narrowest part of the strait, the entrance being over two miles wide. The guns were now loaded and run not quite out, but only level with the ship's side and with the tompions in them. Those ships possessing Gatling guns hoisted them into the tops so as to bring them to bear upon the embrasures of the fort. The men were cheerful and steady, though at the moment every man believed that fighting must ensue with the terrible forts at Chanak; and yet none knew whom they were going to fight, whether Turks or Russians, or why they were going to fight them, for in the fleet there was no news of what was going on in the world ashore. At length the terrible Chanak was approached, and then at the last moment was seen a signal hoisted from the *Salamis* which told that the passage would not be disputed. The *Sultan* then saluted the Turkish flag and proceeded with the *Salamis*, yet, to the general disappointment, the remainder of the fleet was ordered to return to the nearest anchorage, Besika Bay. During the journey the larger ironclads had all of their steam anchors ready, so that they might be anchored bow and stern off the forts, to assault them if required. There is an old castle and a strong earth fort on the opposite side of the narrows to Chanak, and the stream is known to have torpedoes laid down, so that the most sanguine could not have expected a bloodless victory had it been necessary to force the Dardanelles. The fleet had certainly a most imposing aspect, and there was much that was striking to be seen from the fleet itself. On its return the day cleared up, and there was seen the grand island of Imbros basking in the sun. "*Est in conspectu Tenedos*," for the peak was not lost sight of from sunrise. "If every one at home only knew how anxious the crews of the ships are to get some real news about the war, they could not but admire the cheerful obedience with which the men execute orders that are unintelligible to them. It is interesting as well as important to know that as the fleet passed between the castles of Europe and Asia the guard turned out and presented arms to the ships. There was a strong feeling in the fleet at the time of the advance that the passage of the Dardanelles could certainly have been forced had it been required. But at Chanak there are two low forts, stated to mount sixty-ton Krupp guns, and there is an upper fort with a plunging fire, so that it would have taken some time to destroy it.

Stanley's Unfortunate Speech.

Stanley's speech before the Royal Geographical Society of London on the 8th of February seems to have been in bad taste. Colonel Forney, writing of it in the kindest spirit, says:

> I wish I could write as warmly of it as I can of his great labors and discoveries in Africa. But it was in wretched taste. Worse than all, it was unprepared and he was frank enough to say so. The man tracing his mighty work was, however, the true orator of the evening, and as he referred to what he had done the good people around him forgot his egregious vanity and his apparent disregard for the place in which he stood, and gave him many rounds of hearty applause. I have a sincere regard for Stanley and for his marvelous labors; but the man seems to have lost his head. The company he met on Thursday evening could not have been more distinguished if Benjamin Franklin had been the guest; or George Washington, or even Shakspeare or Milton. But either of these characters, like the living Garibaldi, or Gen. Grant, or Laboulaye, or John Bright, would have shown their greatness by that humility which the really eminent mind always shows in the presence of a generous popular recognition. As I heard Stanley's loose and nonsensical egotism, I thought of the modesty of the lamented Dr. Kane, and the clear, gentle accents of the departed Agassiz. I do not wish to criticise, but to deplore an exhibition so far beneath the man and the occasion.

The Daily Oregonian.

TUESDAY MORNING, MARCH 12, 1878.

ONLY WANT TO BE LET ALONE.

For years the Union and Central Pacific railroads have successfully resisted all efforts in congress to enforce equity between them and the government. The roads were built wholly by government subsidies of lands and bonds. For above eight years they have been in successful operation; and though each road has divided many millions of dollars annually among its managers, making them among the richest men in the world, yet the government has been obliged to pay interest on the money it advanced for construction of the roads, until the interest account is now growing toward the huge proportions of the principal, and soon will exceed it. That the managers of the roads should be permitted to make dividends among themselves, on pretended stock, of the enormous surplus earnings of the roads, and to beat the government out of a sum which by the time the bonds are payable will amount in principal and interest to one hundred and eighty million dollars is the most scandalous thing in the whole history of jobbing legislation. But heretofore the millions furnished by the government have been turned against itself. They have created and maintained an influence in congress which has defeated thus far all efforts to enforce the rights of the government. At the same time, these roads, though built without the cost of a dollar to those who operate them and divide the proceeds, maintain the most extortionate rates of any roads in the United States. Through fares per mile are nearly double the rates charged by the other principal trunk lines, and local fares are in proportion still higher. It is an absolute monopoly, which controls the business of half a continent. To perpetuate its power its agents are in constant attendance at Washington, opposing all propositions for aid of any sort to establish competing lines. Thus far it has foiled alike the efforts for a southern and a northern road. The northwest, contending for an independent line, through the Northern Pacific, find the agents of the monopoly in the gate. They are delaying the only measure to which we can look with any hope; they are fomenting divisions by proposing impracticable schemes, and are working with might and main to stave off any definite action by the present congress. So far they have succeeded. Time is passing, months have slipped away; as yet the monopoly holds the fort; and, judging from the past, it must be owned that its chance is good that the fight against time will prevail to the day of adjournment.

The magnitude of the monopoly's extortion may be judged by inspection of the figures presented in the report of one of the companies, representing the business of 1877. The Union Pacific last year earned $12,473,203. Operating expenses, including taxes, were 5,272,421, leaving as surplus earnings $7,199,782. Most of this surplus was divided among the members of the Jay Gould ring, and the interest charge of $2,000,000, or thereabouts was thrown upon the government. Of the Central Pacific the surplus earnings and dividends doubtless were still more, for it is operated at less expense than the Union, and has more local traffic. The principal members of this company live in magnificence and splendor which exceed the modesty of any private fortunes in the world. Only grandees of royalty in greatest nations exhibit in their manner of living such profusion of wealth; yet the money of which these magnates of ours make so great display is not their own, but belongs to the people of the United States. It should be paid on interest due to the government, instead of being squandered in the riot of private indulgence and luxury.

A year ago an effort was made in the senate by the judiciary committee to pass a bill requiring the companies to pay over a certain proportion of their net earnings to support a sinking fund for the gradual extinction of their debt to government. The bill was so drawn that each company might be required to pay a million and a half a year, which was a moderate requirement when it is considered that net earnings have been from ten to fifteen millions annually. Senators Thurman and Booth strongly supported the bill; Senators West, Mitchell and others opposed it, and wanted to substitute a bill of their own, which it was understood had the sanction of the companies and which, of course, proposed much smaller annual payments. As usual in such matters the disagreement defeated the whole effort, and the companies got a further respite of a year for enjoyment of the whole booty. There is now a bill to require them to pay a million a year each. Considering the enormous profits of the roads the sum is not large enough. But even this is likely to fail. If the companies can prevent the government from getting its own and at the same time defeat all efforts to establish any competing line, they will have even a better thing in future than they have enjoyed in the past. They are now as conservative as Jefferson Davis when he and his friends had set up the Southern Confederacy and only wanted to be let alone.

WHAT HOLDS UP THE SILVER DOLLAR.

Several journals are gibing at THE OREGONIAN because gold does not rise since the silver bill passed; and they assume that this fact refutes all our statements upon the subject. If they will consult our files they will see that, from the time the bill was changed to its present form this paper stated it could have no immediate effect on the price of gold or on the gold value of greenbacks. Limitation of the coinage of silver is the fact which causes this result; and gold still remains the standard of value because there will not be for a long time enough silver coined to meet the demand for payment of duties, which therefore must be paid in gold. Silver being at par with gold at the custom houses will pass everywhere at nearly its par value till enough silver is coined to supply the whole demand. When this happens it will displace gold, and silver dollars will at once sink to their bullion value, whatever that may be, as indicated in the table printed in another place. A few [illegible] Senator Cockrell, of Missouri, introduced [illegible] authorizing deposits in the treasury of silver bullion, and the issue of certificates therefor to be receivable for duties, taxes [illegible]. Should this pass there [illegible] immediate deposit of silver bullion [illegible] sufficient for all these purposes, and the silver dollar, no longer supported by the demand for it for payment of duties, [illegible] to its value as bullion and greenbacks would go with it. These [illegible] the statement of them is sufficient.

[illegible] letter from Senator Grover to a citizen of Oregon [illegible] We can [illegible] not [illegible] this session for the Portland [illegible] have strong hopes of the [illegible] the condition [illegible] down the south side of the Columbia [illegible].

THE LATEST VISIONARY THING.

What has become of the Salt Lake road? The bill that was so sure to pass, where does it loiter? It was proclaimed that Mitchell's consummate policy, eclipsing everything by its brilliancy and intrepidity, was the very thing that the northwest had long waited for. It was the policy to secure a railway, and the only policy. People who were skeptical were monopolists or fools. But the Mitchell bill, after life's fitful fever, sleeps so well that no trump can wake it to glory again. But the few who thought that this was the way to get a railroad appear to have given it up entirely. They no longer talk about securing a Salt Lake grant, but admit that the only chance is in the Northern Pacific bill, as most have seen from the first. Having been forced to give up the Salt Lake grant as an impossible condition, they have, however, begun to demand another condition quite as impossible. Without being able to see where the money is to come from, or having the least ground for a supposition that the money could at this time be obtained for it, they require that the road shall be built first from Portland to Umatilla; and some actually talk as if this could be *forced*, if we only *demand* it. Capitalists can be forced to advance ten million dollars on the bonds of the company to build if we only *demand* it. There is likely to be some disappointment if the expectation be entertained that capitalists can be forced to advance six million dollars on the bonds of the company to build a road just now from Portland to the Dalles, which road nobody for some years to come could receive as a gift and pay running expenses, without plunging into bankruptcy. It is one scheme of absurdity after another. They tread each other's heels.

No journal has more careful or intelligent correspondence from Washington than the Cincinnati *Gazette*. A very recent communication from the Washington bureau of that paper presents facts which prove very clearly that managing Democrats and disaffected Republicans are working together with expectation of making a successful assault on Hayes' title. Prominent Democrats profess to believe, though they are very cautious in their statements, that after March, 1879, they will have a congress, both branches of which will declare Tilden to have been lawfully elected, and thereupon they will proceed to "recognize" him. The *Gazette's* writer affirms that there are many Republicans, and prominent ones too, who will lend active aid, while others will be passive and make no opposition. The whole statement seems sensational; yet partisanship in our country goes to extremes so great that it is not safe to say that anything is beyond the audacity of political partisans.

POLITICAL POINTS.

There is quite a scare among the Democrats of Linn. They fear the greenback element will draw off so many votes that Republicans will carry the county.

Republicans of Douglas will hold their county convention on the 12th April. Besides electing delegates to the state convention they will nominate a full county ticket.

And now Butte creek, Jackson county, is heard from. A citizen there suggests that the government issue one million tons of silver dollars and lend them to the people at three per cent. interest without security.

Jacksonville *Times*: The only greenback organization in Southern Oregon is said to exist on Williams creek, Josephine county. It is said to be composed principally of those who still follow the blighted fortunes of that sublime fraud, Brick Pomeroy.

DIED.

Clarence, infant son of E. and Marian Tompkins at Mount Tabor, 17th of February, of chronic croup, aged 6 months and two days.

UNDER THE MOUND.

Softly step, lightly tread—sacred's the ground
Where rests our little one under the mound;
Too pure for earth, they have called him away
To mingle with angels in brighter array.
No one can know how our heart strings were wrung
When our sweet darling was called to his home;
No more his sweet, cooing voice our hearts will cheer,
The crib is empty and silent the tear.

CONDENSED SOUP.—At the Bank of British Columbia and at Ladd & Tilton's Bank can be seen samples of what may appropriately be called "condensed soup." To an old lady, who does not desire to have her name made public for the present, belongs the credit of inventing this convenient and nutritious article of food. The soup consists of condensed or solidified meat juice—either pork, beef or other meats. It is as hard as bone when thoroughly dried, but can easily be dissolved in either warm or cold water. LOST CHILDREN.—Yesterday afternoon word was left at the police station that a child had been lost, and an officer was detailed to go in quest of the little truant. After a short search the officer found the child. Although only a few years old, the little piece of humanity had toddled off some seven or eight blocks from home before recovered. A few days ago a lady came to the police office and desired the officers to find her little brother, whom she stated had not been home for some time. Search was made for the lad and he was found down on the wharf angling for suckers and seemingly contented with himself and the world. He was marched up home in short order. The police inform us that they are very frequently called upon to look for lost children, from which fact it may be inferred that parents in this city are not as careful about their offspring as they should be.

Y. M. C. A.—Last evening the annual meeting of the Young Men's Christian Association was held at the room. There was present a full attendance. The following officers were elected: President I. Allen Macrum; vice president, Prof. R. K. Warren; secretary, J. J. Browne; treasurer, Dr. S. J. Barber. It was determined by the association to make the collections hereafter on the 15th of each month instead of the 1st. The annual reports of the officers were called for, but they not being ready to report, further time was granted. The association adjourned until next Monday evening.

DRAMATIC.—"Capt. Jack," Miss Rena, J. M. Ward, Mr. and Mrs. Wade, and the other members of the company, are playing at Vancouver. The company will play there until Thursday, when they will return to this city. Friday morning "Capt. Jack" and all the members of the company, except Mr. Ward, will start up the valley. They will appear at Reed's Opera House Friday and Saturday evenings; also give a matinee performance. Before returning to Portland the company will visit Eugene City, Corvallis, Albany and Oregon City.

WOMAN'S TEMPERANCE SOCIETY.—Says the *Telegram*: "It is proposed by some of the ladies in this city to organize a temperance society in this city, auxiliary to the Woman's Christian Temperance Union, a national organization, and for that purpose a meeting will be held in the hall of the Young Men's Christian Association next Thursday afternoon at 3:30 o'clock. Several ladies have taken hold of the matter in earnest, and the organization promises to be a live one and to do much good.

JOHN MORGAN'S FUNERAL.—Yesterday all that was mortal of John Morgan was laid in the grave at Lone Fir Cemetery. The funeral services were conducted by Rev. T. L. Eliot, and the remains were followed to the cemetery by the Portland Hibernian Benevolent Society and members of the fire department. The procession was led by the Northwestern Band discoursing funeral music. The attendance was quite large, and showed that the deceased had many friends.

NUPTIALS.—A correspondent writing from Eugene City under date of the 10th, says: "Mr. T. J. Chisher and Miss Huldah Severis were united in matrimony to-day at 10 o'clock. The ceremony was solemnized at the residence of Mr. J. B. Underwood, Rev. C. W. Reese officiating. About 60 guests were present, and at the conclusion of the ceremony a splendid dinner was served. The happy couple will take the down train to-morrow for a bridal tour.

LECTURES IN EAST PORTLAND.—This (Tuesday) evening Dr. Paul M. Brenan, the well known physician and popular lecturer, will deliver a lecture at Odd Fellows' hall. This lecture will be the first of a course of several to be delivered in that city. His subject this evening will be "The Throne of the Mind." Admission free; a cordial invitation is extended the public. Dr. Brenan is a fluent and pleasant speaker and his course of popular lectures will no doubt be largely attended.

ANOTHER MAN.—In the "Police Court Notes" yesterday morning the name of Geo. A. Moody appears, that person having been fined for "lying drunk." Mr. Geo. A. Moody, the gentlemanly and efficient salesman at Allen & Lewis' wishes it most distinctly understood that he is not that sort of a man at all. The individual who got fined for the luxury of sleeping on the sidewalk, is a discharged soldier, and in no manner related to the gentleman alluded to.

VERDICT FOR DEFENDANT.—By reference to our dispatches found elsewhere, it will be seen that the case of United States vs. Gen. O. O. Howard, at Washington City, has been decided by a verdict for the defendant at the hands of the jury, rendered under direction of the court, the plaintiff having failed to make even a *prima facie* case. This will be welcome intelligence to the many friends of Gen. Howard in this city and elsewhere.

GONE TO SEA.—A gentleman who arrived here last evening from Astoria informs us that the steamer *Ancon*, which sailed from here Sunday morning, started to go to sea at an early hour yesterday. When the boat started for Portland our informant says the *Ancon* was almost out of sight, and as the bar appeared smooth, there is no doubt but that she passed out to sea.

ONLY FIVE DOLLARS.—Mr. J. C. Cartwright informs us that he has been instructed by the secretary of the treasury that from and after this date and until further notice silver will not be received by the collector of internal revenue for the district of Oregon in any greater amount than $5 in any one payment for stamps or other taxes.

WOOD SAWYERS.—Since white men have settled down to sawing wood, almost the entire labor in that direction is executed by them to the exclusion of Chinese cheap labor. We are pleased to observe that white men take to it so energetically. This will be the means of advancing their interests in pursuits that may be more profitable.

HALL LEASED.—The Astoria paper says: "Manager Bert has leased Liberty Hall in this city for the season, beginning April 15th. This will be a welcome piece of information for lovers of the legitimate drama. He will bring his excellent company with him, and secure the best talent the country affords from time to time."

RAILROAD MEETING.—This evening there will be a public meeting held at the court house in response to a numerously signed call. The object, as announced in the call, is "to take action concerning the railroad interests of Portland." The meeting will commence at 7:30 o'clock.

"SPUDS."—Portland proposes to "remurphyize." Says the Tacoma *Herald*: "Chilberg Brothers, of this place, have just received from Portland an order for 2,000 bushels of potatoes, and they have made arrangements with some of the Chehalis farmers for the supply."

For lace bibs and cheap embroideries go to Mrs. H. Ach.

CONDENSED SOUP.—At the Bank of British Columbia and at Ladd & Tilton's Bank can be seen samples of what may appropriately be called "condensed soup." COUNTERFEITERS ARRESTED

For some time past the people residing in the eastern portion of Clackamas county, near what is known as "Horse Heaven," have been suspicious that certain persons in that section were engaged in the manufacture of counterfeit money.

Two brothers, who lived in that part of the country, named Joseph Bontly and John Bontly, were strongly suspected of being the guilty parties. They lived near the foot of the Cascades, their cabin being situated in the midst of a dense forest. Some distance from their house stood a small shed which was used as a sort of work shop. During the day time these men were engaged at some kind of work, the neighbors could never ascertain just what. At night when they returned to the cabin they always gathered up their tools and whatever they were making and carried them away. This constant effort to conceal their work created much comment among the people living in that region, and at length the belief became general that the men were engaged in making counterfeit money. They were closely watched, but nothing very definite was discovered for some time. Taking advantage of their absence, several of the neighbors entered the cabin to inspect the premises. They found, on examining the house, some tools used by counterfeiters and also a few pieces of spurious coin. With this evidence John and Joseph Bontley were arrested and taken before a justice of the peace. However, the persons who had entered the cabin during the absence of the men and made the discovery of the tools and counterfeit coin were afraid to appear and testify against them, under the erroneous impression that they themselves would be implicated in some way. So the prisoners were discharged, no person appearing against them.

Meantime U. S. Marshal Waters had received information of the conduct of these men, and he began to work the case up. He soon became convinced that they were engaged in making counterfeit money, and he determined to arrest them. It was told him that these men could not be taken. They were said to be desperate fellows, and never ventured from their cabin without taking along their rifles. Anticipating some trouble on that score, Marshal Waters took a man from Oregon City and started for the home of these supposed counterfeiters.

It seems that after the arrest and discharge of the brothers, they became apprehensive as to their safety, and concluded to leave that part of the country. Only a few days before the marshal started to apprehend them, one of the brothers—John—came down to Portland, bringing with him his own wife and the wife of his brother. He also brought down a portion of their household effects. Joseph Bontly and his brother-in-law—a man named Frank Dalezaugh—tarried at the cabin to pack the remainder of their things up, intending soon to rejoin his wife and brother in this city.

Marshal Waters and his deputy arrived near the cabin last Friday. Knowing that he had desperate men to deal with, the marshal resolved to resort to strategy and place the fellows at a disadvantage before attempting to arrest them. He and his deputy laid quietly by all during Friday night watching the cabin. Bontly and Dalezaugh slept on a heap of straw with their rifles by their side. Along toward morning, when the men were fast asleep, the officers slipped up quietly and took possession of the arms, and arousing the slumberers placed them under arrest. Finding they had been out generaled, the men gave up without offering resistance. Officers and prisoners were brought down to this city Sunday. On reaching Portland, Waters hunted up the brother, John Bontly, and arrested him.

Yesterday these alleged counterfeiters were being examined before U. S. Commissioner Hamson. There seemed to be no evidence connecting Dalezaugh directly with the crime of manufacturing counterfeit money and he will no doubt be discharged. The other two men were held to answer the offense charged.

SOCIAL EVENTS.

The Ladies' Social Union of the Taylor street church will give one of their tea socials in the basement of the church this evening. Admission 25 cents, including supper. During the evening there will be literary exercises and singing.

BRIEF NOTES.

"Mum" sociable.

Leaves are appearing.

The grand jury has been discharged.

Ex-Gov. Curry is still slowly recovering.

The city clock was out of gear all day Sunday.

A liberal supply of salmon and trout in the markets.

Postmaster Cole is expected home about April 12th.

Only 9 more indictments returned yesterday by the grand jury.

The masquerade season closes with Thursday night's party at Turn Halle.

It is ten years since Oro Fino hall was used as a temple for terpsichorean festivities.

Message uncalled for at Western Union telegraph office for Miss Sarah S. White.

The bark Garibaldi started to go to sea Sunday morning but was compelled to return.

There will be a meeting of the Ladies' Aid society at the Baptist church to-day (Tuesday) at 2 o'clock P. M. It is earnestly desired that all members be present.

A party of fishermen took in 120 salmon in two hours on Sunday night near Astoria, which were sent to this city.

There will be a stated conclave of Oregon Commandery No. 1, Knights Templar, at their asylum this (Tuesday) evening at 7½ o'clock. Work in the Templar degree—all Sir Knights are requested to be in attendance.

We observed a rising young merchant in the south end of First street exercising himself with a bucksaw yesterday. There are plenty of idle young men who might profit by following the example of the above party.

REPORT OF THE GRAND JURY.

The following report was submitted by the grand jury yesterday in the state circuit court just before that body was discharged by Judge Shattuck:

We the grand jurors in accordance with our duty have visited the several public institutions in this county and would respectfully report as follows:

COUNTY COURT HOUSE.

We find the building above the basement in good repair. The office of the county clerk is kept in excellent order, and the papers and records are well arranged considering the limited space. We would reiterate the recommendations of former grand juries as to the necessity of erecting a fire proof building detached from the main building for the safe keeping of their records and papers of the county, as they are liable to be destroyed by fire at any time; and in such a case their loss would be incalculable and lead to interminable law suits. At the great fire in Chicago, the records were entirely destroyed and could only be partially replaced by purchasing an abstract of titles to real estate at an expense of $100,000, and in case of such a loss in this county we doubt if such an abstract could be obtained.

If such a building should be erected it should be not for the present time only, but for years to come, as in the increase of population and the opening and settlement of the country the records are increasing in proportion yearly, and they are now very voluminous.

The other offices in the building are in good order. The

COUNTY JAIL

Is kept as clean as can be expected, considering its crowded state, there having been forty eight prisoners confined at one time. We consider it is entirely too small, damp and unhealthy and insecure. The jailer's sleeping room and ante-room are much injured by dampness penetrating the walls, and unless some repairs be made the ceiling and plastering will soon fall.

The water closets are not kept as clear as they should be, and the one in the yard in the rear of the building, we declare to be an abominable nuisance; and in warm weather the stench arising therefrom is almost intolerable, not only to persons who have business at the court house, but also to persons residing in the vicinity, and should be abated by putting in patent tops or by removing it entirely.

CITY JAIL.

We have no recommendations to make in regard to this building, as we find it in good repair and clean.

INSANE ASYLUM.

We cannot but express our commendation of the manner in which this institution is conducted. The rooms, beds, clothing and food are models of neatness and cleanliness. The facilities for extinguishing fire if it should occur, are ample, there being a large supply of water, together with hose in each ward sufficient to reach every part, and also in each ward are Babcock's fire extinguishers ready for use at a moment's notice.

The means of escape in case of fire are ample, there being two large outlets to each ward.

There are at present in the asylum 161 male state patients, 63 female state patients and 2 private patients, making a total of 226.

COUNTY POOR FARM.

This institution we found in good order as to cleanliness. The food is ample and substantial. There are at present 29 male inmates who appear in good health with a few exceptions.

All of which is respectfully submitted,

P. W. GILLETTE, Foreman.
H. BORIES,
JOHN P. POWELL.

NOTES FROM YAKIMA.

YAKIMA CITY, W. T., Feb. 28, 1878.

TO THE EDITOR OF THE OREGONIAN:

Oldest inhabitants say, they have never had a winter like this. It has been a mixture of rain and snow and alternate freezing and thawing. The thermometer has not indicated colder weather than twenty degrees above zero. Stock has done well on the range without feed. To be sure animals are not fat enough for beef, but are considered by stock men in good condition. Some eastern cattle men have been in this part of the country buying this winter. They have succeeded in buying 15,000 head, mostly from Yakima county. We understand they want 5,000 more. Parties through this part of the country having sold them, have received notice to deliver their cattle at White Bluffs on or before April 1st. They want also 400 head of riding horses and over 100 men to help drive. They offer $40 a month and furnish everything. These parties will leave near a quarter of a million dollars among the stock men of the northwest territories.

A mass meeting of the citizens of this county was held in Yakima City last Saturday to express their opinions and pass resolutions relative to the Seattle & Walla Walla and Northern Pacific railroads; Wm. Masters in the chair, H. M. Benton, secretary. Several speeches were made on the subject, but the opinions were all on one side, namely: that of the Northern Pacific. Resolutions were passed expressing their confidence in, and their preference for, the branch line of the N. P. R. R. Great interest is manifested in this matter in Yakima county.

Yakima City was thrown in a tremor of excitement last week, when some of the "early birds" made the discovery that the safe of S. Barker, one of Yakima's permanent merchants, had been burglarized. The parties had effected an entrance at one of the back windows by taking out a pane of glass, thus enabling them to remove the catches on the inside. They made their way through the window. The safe, which was a small sized Tilden & McFarland, they rolled to the back door, dumped it on a pair of hand trucks, and then took it through the middle of the street to the suburbs about a quarter of a mile from the store. There they proceeded to demolish it by chopping through the door. They succeeded in obtaining about $800 in cash, but they were doubtless disappointed, as they expected a much larger haul. Only the day before, Mr. Barker had sent away $2,500. On Friday night the same store was again entered and a quantity of goods taken; no clue to the robbers.

The bunch grass is springing up and the hills look perfectly green. "KEITO."

DR. WOOD'S MARVELOUS CURES.

A Prominent Citizen of Washington County Cured by Magnetism.

HIS CERTIFICATE WRITTEN A MONTH AFTER TREATMENT.

FOREST GROVE, Feb. 20, 1878.

To whom it may concern: I wish to state that about four years ago last fall I became partially paralyzed in the middle fingers of my left hand. About one year after the same fingers of the right hand became similarly afflicted, which affliction continued to extend up my arms, and in about three years reached my shoulders, but did not prevent me from laboring, but during the fourth year annoyed me very much; and finally the disease formed a connection between my shoulders with death-like coldness, and in December last the same sensations set in in my feet, which extended up my legs into my hips. On the 9th of January last I visited Dr. C. M. Wood, magnetic physician, of Portland, and after receiving assurances of relief, I submitted, and after receiving nineteen treatments at his hands I was discharged, and now feel that I am entirely relieved of those symptoms and, in fact, I feel that I am in better health now than I have been in twelve years. Respectfully, T. M. HINES.

Dr. Wood cures the following diseases: Chronic Liver Complaint, Disease of the Kidneys, Dyspepsia, Indigestion, Spinal Complaints, Pains in the Side, Back, Shoulders, Hips and Chest, Headache, Neuralgia, Heart Disease, Rheumatism, Chronic and Acute Female Diseases and Irregularities, Sore and Weak Eyes, Deafness, Ringing in the Head, Bronchial Affections, Chronic Catarrh, and General Debility, caused by any of the above afflictions.

Office—Northwest corner of Third and Morrison streets, Portland.

Dr. R. F. Price, 129 First Street, Portland, Oregon.

Dr. R. F. Price, graduate of a German university, devotes special attention to the cure of "CHRONIC DISEASES," whatever their nature may be, particularly those of a *delicate complicated* or *obstinate* character. Bad effects of *youthful follies* quickly cured. *Manhood* restored. *Prompt relief for ladies out of health.* *Diploma* and *testimonials* open for inspection. *No flattery!* No quackery! No deception!

"German Syrup."

No other medicine in the world was ever given such a test of its curative qualities as Boschee's German Syrup. In three years two million four hundred thousand small bottles of this medicine were distributed *free of charge* by Druggists in this country to those afflicted with Consumption, Asthma, Croup, severe Coughs, Pneumonia and other diseases of the Throat and Lungs, giving the American people undeniable proof that German Syrup will cure them. The result has been that druggists in every town and village in the United States are recommending it to their customers. Go to your druggist, and ask what they know about it. Sample bottles 10 cents. Regular size 75 cents. Three doses will relieve any one.

TO THE PEOPLE OF OREGON.

Dr. Souville Mathieu, the eminent French physician, whose wonderful cures have appeared in our columns, will benefit the people of Walla Walla, W. T., and vicinity, with his wonderful instrument called The Paris Spirometer, which we know has cured several hundreds in our state. That instrument conveys medicated inhalations direct to the seat of disease. That wonderful instrument is a blessing to mankind and a credit to his name. We recommend the Doctor very highly to the afflicted. The Doctor will be in Walla Walla a few days only.

NATURE'S OWN REMEDY

CALABAR GRAINS.

THE GRAINS ARE OF NEARLY THE SIZE, color, and appearance of apple seeds; hard, smooth, inodorous and tasteless. They are obtained in small membraneous pouches, containing about seventy-five or eighty of the Grains or "Seeds," and have the trade mark of the proprietors to each pouch.

By their peculiar action upon the nervous and excretory systems, the brain is rendered clear, and the blood freed from all the causes of Sick Headache, Dizziness and drowsiness; and by their tonic effect Dyspepsia, Constipation, Irregularities, Sallowness, Offensive Breath, and many kinds of Eruptions are cured.

Voyagers and travelers who suffer from seasickness, headache and dizziness have pronounced the Grains indispensable. Take from one to three, preparatory for, and one or two daily during the journey.

By insuring healthy digestion and assimilation of food, the Calabar Grains will prove a boon of world-wide importance, not only by promoting present comfort and happiness, but by actually tending to improve the physical and mental status of the race.

The CALABAR TREATMENT has proved a splendid success.

Circulars to Physicians and others will be furnished.

Price 50 cents a package, sent by mail to any address. Liberal discount per dozen or gross.

Financial.

MONDAY EVENING March 11 1878

Gold in New York 102.

Legal tenders in Portland—buying 1¼ selling 98½

Silver in Portland, buying 8½ per cent. discount selling 4½.

The local money market during several months past has shown but little variation in the ruling rates of interest, and under the usual increased demand which prevails in the spring season, we may not reasonably expect any change from the ordinary quotations of 10@12 per cent per annum at which all transactions recorded for many months have been made the only exception noticed being one loan at 11 per cent about one month ago

A San Francisco correspondent states that the rate of interest on loans on real estate securities in that city has been advanced to 9 per cent, but that no borrower is justified in paying over 8 per cent for loans of $10 000 or over on good real estate Large sums of private money are offered at 7½ per cent, and if the Savings banks insist on charging 9 per cent, there will be plenty more foreign and home capital at 7¾@8½ per cent.

The silver bill and the effect of its operation on the general business of the country continues to be the subject of extended comment in our exchanges. The San Francisco *Bulletin* notices the fact that contracts for gold or other lawful money are expressly exempted from the operation of the act. This is only the affirmation of a constitutional principle already enunciated by the supreme court of the United States. It was not possible for congress to lay down a different rule. The new dollar cannot, therefore, be used for the discharge of a gold debt. Nearly all contracts in this state are for that metal. The savings banks, as a general rule, received nothing but gold, except in sums under $5 from their depositors All their loans are for gold. They cannot therefore pay out anything but the gold which they received in the first instance. Our future financial condition depends on the nature of the contracts made.

The subsidiary silver remains as before, legal tender for $5, and no more. As the amount is limited by law, and the limit has already been reached, it is likely that these coins will in time nearly approach par. They have been increasing in value in this city for some time

Miscellaneous.

An improvement is noticed in the local dry goods market during the past few days. Dealers here have very fine displays of woolen goods. These consist of every variety from the cheapest of worsted to the finest cassimeres; while cottons in all their varied styles, colors and grades surpass those of preceding seasons. Dress goods of cotton and wool mixtures and prints are offered at unusually low figures and in beautiful styles. With all these and other advantages to facilitate we may soon look for a large volume of trade from this point.

The London *Financier* of the 1st inst. referring to the failure of Willis, Percival & Co. Lombard street, bankers, says: Willis, Percival & Co. were private bankers of 108 years standing A favorable liquidation is expected. No suspicion of embarrassment of the house seems to have been entertained The firm consists of Henry Willis, Samuel Tomkins and Samuel Leith. Tomkins is grand treasurer of the Free Masons, and the accounts of the Grand Lodge and one or two large masonic charities were kept there.

The steamer George W. Elder passed a great deal of wreckage on her last passage from this port to San Francisco, including a boat painted some dark color and a schooner's mast.

The British ship Greta, which recently arrived at Liverpool from this port, had a very hard passage December 10, latitude 44.7 south, longitude 50 5° west, she encountered a terrible gale. The ship at the time was laying to under a close-reefed main topsail and main staysail. A tremendous sea was running, and in one of her lurches the cargo shifted and she was thrown on her beam ends, remaining in [illegible] The bulwarks of the deck up to the mainmast was completely under water. The ship strained heavily, taking everything overboard that could possibly be carried away.

The exports of Canada during 1877 were $70,907,-308, and the imports $94,487,130. The trade with Great Britain in 1877 amounted to $81,567,469, while that with the United States was $25 775 245. In 1873 the trade with the mother country was but $88,743-848, while that with the United States reached $42-[illegible].

Secretary Sherman has modified his recent order relating to sugars held on deck for inspection, requiring, however, that 10 per cent. of each mark of sugar covered by a permit and selected by the examiner from packages which have not been sampled, shall be kept intact by the importer, subject to the collector's order, stored in such place as he may designate, at the risk and expense of the importer, until the permit for final delivery is filed

Domestic Produce.

With the beginning of this week we note some changes under this head. In wheat no important transactions are reported and in the absence of these former quotations are retained The market for oats is very weak, and 45 cents per bushel is about the best figure obtainable. Those who predicted a rise two or three weeks ago and held for it, find that the prospect grows no brighter and some of them are selling. We learn of a sale of 1,000 bushels for feed, for which 55c is alleged to have been paid in the warehouse at Salem. Another sale of a similar amount is reported at 45c, all silver Potatoes are still appreciating and quotations have a range 70@75c per bushel. The demand is active. Eggs have fallen to 22½@23 per doz in the San Francisco market, and though jobbing here at 20c, dealers will not pay over 17@18c

DR. PAUL M. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN has made a specialty in the treatment of the following diseases. Catarrh Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so called Doctors, through pretended friendship for the patients Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door, Room No 7, Corbett's Block, over O'Connor's Store, corner of Front and Washington streets.

WE WILL ALSO KEEP CONSTANTLY ON hand for sale an almost sure cure for Piles in their worst forms and a sure cure for Dyspepsia. I defy competition on these two diseases can give almost immediate relief and cure if our directions are strictly followed To say that any human being can cure Piles and they shall never return would be more than any person outside the lunatic asylum ought to venture to assert I do not profess to be able to do that But I do know from thirty years of my own experience and of trials of many others of both sex that my preparation has come the nearest perfection of any thing ever offered the public and in some of the most inveterate cases I cannot just now go into any length by propositions on the subject I will only offer a few hints for the consideration of those troubled with this annoying disease. I hold that postponing the demands of nature to evacuate is a prolific cause, most especially in towns and among persons in business say is it not next to impossible for the clerk the merchant, the seamstress &c. to answer nature's calls promptly? This soon becomes a terrible tax on nature then comes costiveness; next you take drastic purges, and the unavoidable consequence is you have aggravated, not soothed nor healed you have neither supplied the injured parts with a lubricative a healer nor a comforter; you have left them irritated more or less to go through the same routine over and over again until you have no rest anon comes a train of diseases you do not think why you have a worried look because you have not had rest enough Tell us will you how much needless suffering you undergo in one year I hold too that Dyspepsia is another great cause of Piles griping your food helps to cause Dyspepsia. We could go on page upon page and your own common sense would convince you how much you lose and suffer by allowing one disease to retain its hold until it has generated others I offer these hints and facts for your reflection you who suffer And we offer you cures and comforters at a price so low that every sufferer can obtain them Their use is simple and effective They cause no necessity for any suspension of your daily avocations; they cause no inconvenience whatever in any way They will prove a blessing to you and you will say so but you must follow the simple directions strictly, which are enclosed in every package Try them and you will be satisfied I have no long list of testimonials to offer I stand on the sterling virtues of what I offer you You will say well done when you feel the comfort after a very short trial. The New Hampshire Election.

BOSTON March 12—Advices from New Hampshire indicate a very full vote is being [illegible] At noon at Concord the vote was not materially different from that at the same hour last year, Prescott, Republican, having majority in all the wards heard from

At Nassau the indications are that Cook, Democrat will be elected mayor by a small majority while it is reported that McKean Democrat for governor, is running ahead of his ticket in several wards

Exeter elected a Republican representative to the legislature by a large majority

At Keene the Republicans elected a representative a Republican gain

At Littleton the Democratic local ticket is elected by about eighty majority

At Manchester the Republicans claim the election of the city ticket by a reduced majority

Bethlehem gives a Democratic majority

A small Republican majority at Dover is indicated by the noon returns.

Up to 1 o clock no decisive returns for governor have been received

PORTSMOUTH N H., March 12 —At 1.30 the [illegible] of the votes were polled and the preponderance is in favor of the Republicans The greenbackers are rejoiced at the unexpected vote for their favorites

BOSTON, March 12 —Seventy towns in New Hampshire give Prescott, Rep, 11,770, McKean, 10 755, scattering, 191. The same towns last year gave Prescott, 12,001, Marcy, 10,447, scattering, 206 Republican net loss, 617. The relative loss throughout the state will make the choice of governor by the popular vote very doubtful and probably throw the election into the legislature.

Returns from New Hampshire to 9 P. M. indicate the election of 80 Republican and 65 Democratic members of the legislature.

One hundred and forty five towns in New Hampshire gives Prescott, 24,759, McKean, [illegible], scattering 510 In the same last year Prescott had 25 541, Marcy, 23,740, scattering, [illegible] Republican net loss, 1,615

One hundred and twenty towns in New Hampshire give Prescott 18,885, McKean, 17,-[illegible] scattering 659

ANDOVER, March 12 —Greatest excitement known here over the election. The objections to ex U S Senator J W Patterson caused a bolt of a portion of the Republicans, who united with the Democrats for his defeat. Patterson was declared elected by one majority.

A prominent Republican who counted the votes with the officials claimed a mistake of one in the first count and demanded a recount. This was refused and Patterson was declared elected.

Argument of Exceptions.

NEW ORLEANS March 12—Exceptions in the Anderson case are being argued before the supreme court to-day.

Trouble in San Domingo.

NEW YORK, March 12.—A Norfolk dispatch says that the U S steamer *Plymouth* now under repairs has orders to put to sea as soon as [illegible] of the machinists' hands, deferring other repairs until her return. The *Plymouth* goes direct to San Domingo, disturbances there having caused the American consul to be imprisoned and interests of American citizens to be imperiled.

Fires.

A fire in Jersey City last evening, burned out ninety eight families. Two persons were fatally injured, pecuniary loss comparatively small.

Sitting Bull Reported Starving.

BISMARCK, Feb 25 via Chicago, March 12.—It is reported Sitting Bull's band is starving, and would gladly surrender if they could [illegible] their ponies

Meeting of Cuban Refugees.

NEW ORLEANS March 12.—The *Picayune* says By private advices from Key West we learn that a mass meeting of Cuban refugees was held yesterday in that city, and a solemn protest entered against all negotiations with the government of Spain, not based on the independence of the island of Cuba. Two hundred men fully armed and equipped, were to have left Key West for the ill fated isle.

Earthquake.

MILFORD, N. H., March 12.—Two shocks of earthquake here to-day.

Poor House Burned.

CONCORD N H March 12.—The main building of the Merrimac county poor farm building at North Boston, consisting of the central structure four stories, and two wings three stories burned this afternoon with [illegible] of the contents Loss about $18,000, partially insured The buildings were occupied by 180 paupers all of whom it is believed got out safely

WASHINGTON CITY.

Improvement of Coos Bay and Coquille River.

WASHINGTON, March 11 —Senator Mitchell introduced in the senate to day, bills appropriating $5,000 for surveying and buoying Coos Bay harbor and bar, and providing for the improvement of Coquille river at a cost of $25,000

The New Silver Dollar.

WASHINGTON, March 12 —The new silver dollars will be ready at the Philadelphia mint tomorrow.

Decline in Gold.

The gradual decline of gold renders probable the indefinite postponement of the resumption bill by the senate finance committee.

Anderson's Case.

NEW YORK, March 12 —The *Times* Washington special says The general belief in New Orleans is that Anderson will be pardoned. Anderson is confined in jail and the custom house papers are taken to him to sign. He is not permitted to visit his office as has been supposed He receives many visitors

Homestead and Preemption Entries.

WASHINGTON March 11 —Representative [illegible] introduced a bill providing for the repayment of fees paid by innocent parties for entries of soldiers homestead warrants after [illegible] found to be fraudulent, or for home[illegible] or timber culture entries found to be in conflict with prior entries or otherwise erroneous. The bill also extends to preemption [illegible] who have paid double minimum rates [illegible] homestead settlers who have been [illegible] to 80 acres on lands erroneously supposed to be railroad lands all the benefits provided by the act of March 3 1875 for preemption settlers under similar circumstances [illegible] further provides that every homestead settler whose entry is canceled on account of inadvertency, etc shall be notified and allowed sixty days in which to make a valid location.

Modified Timber Bill.

Representative Wren introduced a bill authorizing citizens of California Nevada Colorado or any territory to take timber from unsurveyed mineral lands for mining or domestic purposes under such regulations as the secretary of the interior may prescribe [illegible] provided that no timber shall be cut in mountainous regions within five miles of the upper timber line

Stockholding Congressmen

The publication of an alleged list of congressional stockholders in McGarrahan's [illegible] Grande Company is beginning to call forth emphatic denials [illegible] Congressman Sawyer of South Carolina publishes a card in the *National Republican* to day declaring he [illegible] interest in [illegible] and Senator [illegible] to him is reported by the [illegible] stating that he [illegible] McGarrahan [illegible] gave a dollar's worth of stock of any sort to anybody [illegible] scornfully denies having received [illegible] consideration of any kind for the exertion of his influence in defending McGarrahan's claim [illegible] When the whole of the Pacific delegation George H Williams [illegible] Stewart, and [illegible] talked against

FINANCE AND COMMERCE.

Financial.

MONDAY EVENING, March 11, 1878.

Gold in New York, 102.

Legal tenders in Portland—buying 95½, selling 95½.

Silver in Portland, buying 3½ per cent. discount, selling 4½.

The local money market during several months past has shown but little variation in the ruling rates of interest, and under the usual increased demand which prevails in the spring season, we may not reasonably expect any change from the ordinary quotations of 10@12 per cent per annum, at which all transactions recorded for many months have been made, the only exception noticed being one loan at 11 per cent about one month ago.

A San Francisco correspondent states that the rate of interest on loans on real estate securities in that city has been advanced to 9 per cent, but that no borrower is justified in paying over 8 per cent for loans of $10,000 or over on good real estate. Large sums of private money are offered at 7½ per cent, and if the Savings banks insist on charging 9 per cent, there will be plenty more foreign and home capital at 7½@8½ per cent.

The silver bill and the effect of its operation on the general business of the country continues to be the subject of extended comment in our exchanges. The San Francisco *Bulletin* notices the fact that contracts for gold or other lawful money are expressly exempted from the operation of the act. This is only the affirmation of a constitutional principle already enunciated by the supreme court of the United States. It was not possible for congress to lay down a different rule. The new dollars cannot, therefore, be used for the discharge of a gold debt. Nearly all contracts in this state are for that metal. The savings banks, as a general rule, received nothing but gold, except in sums under $5, from their depositors. All their loans are for gold. They cannot therefore pay out anything but the gold which they received in the first instance. Our future financial condition depends on the nature of the contracts made.

The subsidiary silver remains as before, legal tender for $5, and no more. As the amount is limited by law, and the limit has already been reached, it is likely that these coins will in time nearly approach par. They have been increasing in value in this city for some time.

Miscellaneous.

An improvement is noticed in the local dry goods market during the past few days. Dealers here have very fine displays of woolen goods. These consist of every variety from the cheapest of worsted to the finest cassimeres; while cottons in all their varied styles, colors and grades surpass those of preceding seasons. Dress goods of cotton and wool mixtures and prints are offered at unusually low figures and in beautiful styles. With all these and other advantages to facilitate we may soon look for a large volume of trade from this point.

The London *Financier* of the 1st inst. referring to the failure of Willis, Percival & Co. Lombard street bankers, says: Willis, Percival & Co. were private bankers of 108 years standing. A favorable liquidation is expected. No suspicion of embarrassment of the house seems to have been entertained The firm consists of Henry Willis, Samuel Tomkins and Samuel Leith. Tomkins is grand treasurer of the Free Masons, and the accounts of the Grand Lodge and one or two large masonic charities were kept there.

The steamer George W. Elder passed a great deal of wreckage on her last passage from this port to San Francisco, including a boat painted some dark color and a schooner's mast.

The British ship Greta, which recently arrived at Liverpool from this port, had a very hard passage. December 10, latitude 44 south, longitude 50.57 west, she encountered a terrible gale. The ship at the time was laying to under a close-reefed main topsail and main staysail. A tremendous sea was running, and in one of her lurches the cargo shifted and she was thrown on her beam ends, remaining in that position for six hours. The lee side of the deck up to the mainmast was completely under water. The ship strained heavily, taking everything overboard that could possibly be carried away.

The exports of Canada during 1877 were $70,907,-303, and the imports $94,487,180. The trade with Great Britain in 1877 amounted to $41,567,469, while that with the United States was $25,775,245. In 1873 the trade with the mother country was but $38,743,-248, while that with the United States reached $42-[illegible].

Secretary Sherman has modified his recent order relating to sugars held on deck for inspection, requiring, however, that 10 per cent. of each mark of sugar covered by a permit and selected by the examiner from packages which have not been sampled, shall be kept intact by the importer, subject to the collector's order, stored in such place as he may designate, at the risk and expense of the importer, until the permit for final delivery is filed.

The purchase of the Panama Transit Company's rights and property, as reported in our dispatches, by the Pacific Mail Company, has caused an advance in the price of Panama railroad stock from 125 to 135.

Real Estate.

$1,000 two years, 10 per cent.

$2,000 payable July 1, 1880, 10 per cent.

$300, installments, 1 per cent.

We note assignments of mortgages as follows:

March 1, 1878, Ed. G. Harsey to Ladd & Tilton mortgage executed by Ira Goodenough and wife to James Bennett, dated Jan. 19, 1877, which was assigned to Harsey Jan. 29, 1878, $5,518.

Jan. 29, James Bennett to E. G. Harsey, mortgage made by Ira Goodenough and wife to Jas. Bennett, Jan. 19, 1877, $5,000.

Feb. 28, Peter Forcia to Willamette Steam Mill Lumber and Manufacturing Co., mortgage made by Adalbert Mattison to Forcia Sept. 13, 1877, $217.

A power of attorney from Mrs. E. Francis to W. Lair Hill of date Oct. 31, 1877, was recorded, authorizing Hill to release mortgage made by Charles W. Knowles to Mrs. Francis, of date July 12, 1876.

By deed dated March 2d, John B. Roberts and wife conveyed to Leach White all of lot 8 in block 86 also a part of lot 6 in same block commencing at the southeast corner of lot 6 in block 86, thence southerly 25 feet, on a line parallel with east boundary line of said block, thence at right angles with said last named line to westerly boundary line of said block, thence northerly to south corner of lot 8, thence on southerly boundary line of lot 8 to place of beginning; all in Raleigh's Addition as laid off on map of Portland Dray and Hack Company, all in the City of Portland: consideration $3,000.

By instrument of date March 5, 1878, duly recorded, the governor of Oregon accepts the relinquishment of the corporate rights of the General German Aid Society.

Domestic Produce.

With the beginning of this week we note some changes under this head. In wheat no important transactions are reported, and in the absence of sales former quotations are retained. The market for oats is very weak, and 45 cents per bushel is about the best figure obtainable. Those who predicted a rise two or three weeks ago, and held for it, find that the prospect grows no brighter, and some of them are selling. We learn of a sale of 1,000 bushels for 45c, for which 55c is alleged to have been paid in the warehouse at Salem. Another sale of a similar amount is reported at 45c and silver. Potatoes are still appreciating, and quotations have a range 70@75c per bushel. The demand is active. Eggs have fallen to 22 a 23c per doz in the San Francisco market, and though jobbing here at 20c, dealers will not pay over 16@18c

Shipping Intelligence.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself, Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world-wide reputation by his astounding success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door, Room No. 7, Corbett's Block, over O'Connor's Store, corner of Front and Washington streets.

WE WILL ALSO KEEP CONSTANTLY ON hand for sale, an almost sure cure for Piles in their worst forms, and a sure cure for Dyspepsia. I defy competition on these two diseases; can give almost immediate relief, and cure if our directions are strictly followed. To say that any human being can cure Piles and they shall never return would be more than any person outside the lunatic asylum ought to venture to assert. I do not profess to be able to do that. But I do know from thirty years of my own experience and of trials of many others of both sex, that my preparation has come the nearest perfection of any thing ever offered the public, and in some of the most inveterate cases. I cannot just now go into any lengthy propositions on the subject. I will only offer a few hints for the consideration of those troubled with this annoying disease. I hold that postponing the demands of nature to evacuate is a prolific cause, most especially in towns and among persons in business; say, is it not next to impossible for the clerk, the merchant, the seamstress, &c., to answer nature's calls promptly? This soon becomes a terrible tax on nature then comes costiveness; next you take drastic purges, and the unavoidable consequence is you have aggravated, not soothed nor healed; you have neither supplied the injured parts with a lubricative, a healer nor a comforter; you have left them irritated more or less, to go through the same routine over and over again, until you have no rest; soon comes a train of diseases, you do not think why you have a worried look because you have not had rest enough. Tell us, will you, how much needless suffering you undergo in one year. I hold, too, that Dyspepsia is another great cause of Piles; gulphing your food helps to cause Dyspepsia. We could go on, page upon page, and your own common sense would convince you how much you lose and suffer, by allowing one disease to retain its hold until it has generated others. I offer these hints and facts for your reflection, you who suffer. And we offer you cures and comforters at a price so low that every sufferer can obtain them. Their use is simple and effective. They cause no necessity for any suspension of your daily avocations; they cause no inconvenience whatever in any way. They will prove a blessing to you, and you will say so; but you must follow the simple directions strictly, which are enclosed in every package. Try them and you will be satisfied. I have no long list of testimonials to offer. I stand on the sterling virtues of what I offer you. You will say well done, when you feel the comfort after a very short trial. Pile and Dyspepsia Remedies $1.25 per package each; for sale at present only at my office, Southeast corner Corbett and Porter streets, Portland. Office hours 10 to 12 A. M.; 2 to 4 P. M.

GENERAL NEWS.

(BY TELEGRAPH TO THE OREGONIAN.)

The New Hampshire Election.

BOSTON, March 12.—Advices from New Hampshire indicate a very full vote is being cast. At noon at Concord the vote was not materially different from that at the same hour last year, Prescott, Republican, having a majority in all the wards heard from.

At Nassau the indications are that Cook, Democrat, will be elected mayor by a small majority, while it is reported that McKean, Democrat, for governor, is running ahead of his ticket in several wards.

Exeter elected a Republican representative to the legislature by a large majority.

At Keene the Republicans elected a representative, a Republican gain.

At Littleton the Democratic local ticket is elected by about eighty majority.

At Manchester the Republicans claim the election of the city ticket by a reduced majority.

Bethlehem gives a Democratic majority.

A small Republican majority at Dover is indicated by the noon returns.

Up to 1 o'clock no decisive returns for governor have been received.

PORTSMOUTH, N. H., March 12.—At 1:30 the bulk of the votes were polled and the preponderance is in favor of the Republicans. The greenbackers are rejoiced at the unexpected vote for their favorites.

BOSTON, March 12.—Seventy towns in New Hampshire give Prescott, Rep., 11,770; McKean, 10,755; scattering, 191. The same towns last year gave Prescott, 12,001; Marcy, 10,447; scattering, 106; Republican net loss, 617. The same relative loss throughout the state will make the choice of governor by the popular vote very doubtful and probably throw the election into the legislature.

Returns from New Hampshire to 9 P. M. indicate the election of 80 Republican and 65 Democratic members of the legislature.

One hundred and forty-five towns in New Hampshire gives Prescott, 24,759; McKean, [illegible]; scattering, 516. In the same last year Prescott had 25,541; Marcy, 23,740; scattering, [illegible]; Republican net loss, 1,615.

One hundred and twenty towns in New Hampshire give Prescott 18,885; McKean, 17,-[illegible]; scattering, 659.

HANOVER, March 12.—Greatest excitement ever known here over the election. The objections to ex U. S. Senator J. W. Patterson caused a bolt of a portion of the Republicans, who united with the Democrats for his defeat. Patterson was declared elected by one majority.

A prominent Republican who counted the votes with the officials claimed a mistake of one in the first count and demanded a recount. This was refused and Patterson was declared elected.

Argument of Exceptions.

NEW ORLEANS, March 12.—Exceptions in the Anderson case are being argued before the supreme court to-day.

Trouble in San Domingo.

NEW YORK, March 12.—A Norfolk dispatch says that the U. S. steamer *Plymouth* now under repairs has orders to put to sea as soon as out of the machinists' hands, deferring other repairs until her return. The *Plymouth* goes direct to San Domingo, disturbances there having caused the American consul to be imprisoned and interests of American citizens to be imperiled.

Fires.

A fire in Jersey City last evening, burned out ninety-eight families. Two persons were fatally injured; pecuniary loss comparatively small.

Sitting Bull Reported Starving.

BISMARCK, Feb. 25 via Chicago, March 12.—It is reported Sitting Bull's band is starving, and would gladly surrender if they could keep their ponies.

Meeting of Cuban Refugees.

NEW ORLEANS, March 12.—The *Picayune* says: By private advices from Key West we learn that a mass meeting of Cuban refugees was held yesterday in that city, and a solemn protest entered against all negotiations with the government of Spain, not based on the independence of the island of Cuba. Two hundred men fully armed and equipped, were to have left Key West for the ill-fated isle.

Earthquake.

MILFORD, N. H., March 12.—Two shocks of earthquake here to-day.

Poor House Burned.

CONCORD, N. H., March 12.—The main building of the Merrimac county poor farm building at North Boston, consisting of the central structure, four stories, and two wings of three stories, burned this afternoon with all of the contents. Loss about $18,000, partially insured. The buildings were occupied by 180 paupers, all of whom it is believed got out safely.

WASHINGTON CITY.

Improvement of Coos Bay and Coquille River.

WASHINGTON, March 11.—Senator Mitchell introduced in the senate to-day, bills appropriating $5,000 for surveying and bettering Coos Bay harbor and bar, and providing for the improvement of Coquille river at a cost of $25,000.

The New Silver Dollar.

WASHINGTON, March 12.—The new silver dollars will be ready at the Philadelphia mint to-morrow.

Decline in Gold.

The gradual decline of gold renders probable the indefinite postponement of the resumption bill by the senate finance committee.

Anderson's Case.

NEW YORK, March 12.—The *Times'* Washington special says: The general belief in New Orleans is that Anderson will be pardoned. Anderson is confined in jail and the custom house papers are taken to him to sign. He is not permitted to visit his office as has been supposed. He receives many visitors.

Homestead and Pre-emption Entries.

WASHINGTON, March 11.—Representative Hunton introduced a bill providing for the refundment of fees paid by innocent parties for entries of soldiers' homestead warrants afterward found to be fraudulent, or for homestead or timber culture entries found to be in conflict with prior entries or otherwise erroneous. The bill also extends to pre-emption settlers who have paid double minimum rates and to homestead settlers who have been restricted to 80 acres on lands erroneously supposed to be railroad lands all the benefits provided by the act of March 3, 1875, for pre-emption settlers under similar circumstances. It further provides that every homestead settler whose entry is canceled on account of inadvertency, etc. shall be notified and allowed sixty days in which to make a valid location.

Modified Timber Bill.

Representative Wren introduced a bill authorizing citizens of California, Nevada, Colorado, or any territory, to take timber from unsurveyed mineral lands for mining or domestic purposes, under such regulations as the secretary of the interior may prescribe to protect undergrowth, provided that no timber shall be cut in mountain regions within three miles of the upper timber line.

Stockholding Congressmen.

The publication of an alleged list of congressional stockholders in McGarrahan's Rio Grande Company is beginning to call forth emphatic denials in various quarters. Congressman Sawyer, of South Carolina, publishes a card in the *National Republican* to-day, declaring he never had any interest in it, and Senator Voorhees' reported connection with him is reported by the [illegible] as saying that he never heard until yesterday that McGarrahan ever gave a dollar's worth of stock of any sort to anybody. Voorhees scornfully denies having received any consideration of any kind for the exertion of his influence in defending McGarrahan's claim, and says "Why, when the whole of the Pacific delegation, George H. Williams, Gov. Stewart, and Nye, talked against
